Helper Springs

Increases spring capacity by up to 3500 lbs. Simple bolt-on installation, with no drilling necessary. All the necessary hardware is included in the purchase. This product is at the top of the line in heavy duty load management and towing control for pickup, vans, and motor homes. High Quality, precision arched spring steel is used. The springs are fully adjustable with progressive spring rates for the best quality ride possible whether empty or fully loaded. Millions of in-use service miles from thousands of satisfied customers have made these the springs to have! So pile on the firewood or hook up the trailer to a new ride!

1000 lb. Capacity from **\$99.95 Pair**

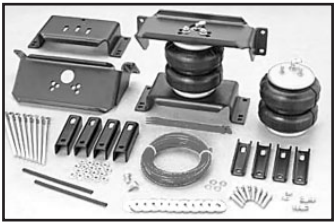

1500 lb. Capacity for mid size and mini trucks from **\$159.95 Pair**

2500 lb. Capacity for full sized vehicles from **\$239.95 Pair**

3500 lb. Capacity for 3/4 and 1 ton vehicles from **\$299.95**

Firestone Air Ride

Firestone's complete line of air helper springs are installed between the vehicle's frame and suspension. They supplement the vehicle's stock suspension and can be adjusted as needed for changing load, towing or on/off road conditions. The helper springs can be easily inflated or deflated (5-100 psi) to balance and level the vehicle providing smooth and safe travel. On board compressors also available.

Timbren Suspension

What is Timbren?

Timbren is a suspension product which enhances a vehicle's empty ride quality, while providing protection against overloading, road shock, bottoming out, sway, and broken springs. Timbren also prevents front end nose diving, providing a smooth, level ride even with heavy loads. Timbren is currently in use on thousands of vehicles throughout the world. Maintain a level and worry free ride by installing Timbren Hollow Rubber spring kits on your van or truck.

Pitman and steering arms are recommended for most vehicles lifted 4' and above. Some problems these arms will help correct are bump steer and a shortened turning.

Most blocks are now available in 2.5" or 3" widths. Non-tapered 4" & 5.5" are also available.

Degree shims can help to correct drive line vibration problems associated with some lift vehicles.

Add-a-leaves are an economical method of lifting vehicles that have leaf springs. Center pins are included with all kits.

When replacing leaf springs don't forget to also replace your U-bolts

STAINLESS STEEL FUEL DOOR COVERS

Hitchin' Rod

Finally! Someone has come out with an easy way to hook up a trailer. The hitchin' Rod from Qworks will revolutionize the way you hitch up. Magnets make it easy to attach the rods to the hitch components.

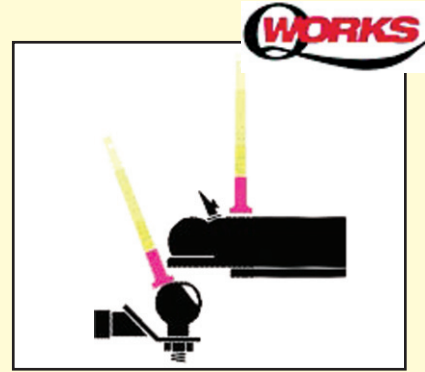

**\$19.95
Pair**

Step 1: Put a Hitchin' Rod on the front-most flat part of your coupler, as well as on the hitch ball.

Step 2: Line them up in your rear view mirror.

Step 3: As soon as the rod on the ball moves, you're ready to go!

EDGE PRODUCTS

ATTITUDE

JUICE

If you own a diesel-powered vehicle, Edge makes a product that vastly improves the way your truck or RV performs. That may sound like a bold statement, but we have the dyno results and the satisfied customers to prove it! Edge products are designed to maximize your vehicle's performance for the type of driving you do. Whether you want power to tow, power to go, or a simple increase in fuel efficiency, edge products will improve the capabilities and enjoyment of your diesel-powered vehicle.
